Partnership. With Guarantee.

Full-lift safety valve made of red brass component-tested
Series SF03

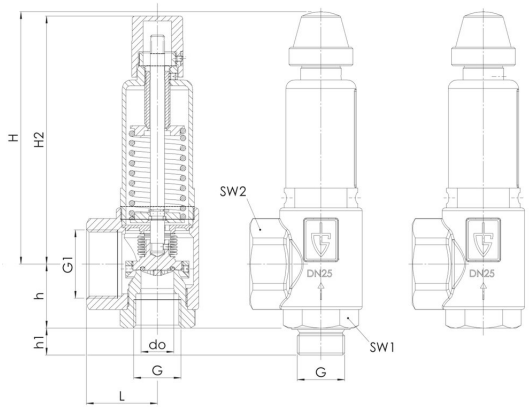

Design type	Spring-loaded full-lift safety valves, gas-tight cap, without venting These types are not back-pressure compensated, i.e. any back pressure occurring during venting affects the set pressure. The set pressure is secured against adjustment by the sealing cap.
Connection	Female thread G1/2"...G11/4"
Materials	Valve body Red brass, Internal parts Brass, Spring Stainless steel 1.4310
Medium temperature	see table
Adjustment range	see table
Mounting type	Installation in rigid piping system
Mounting position	upright only
Application range	see table
Ordering note	Specify the set pressure when ordering
Special versions	Inlet with male thread, Valve in ATEX version

Table:

Adjustment range	Seal	Application range	Medium temperature [°C]	Type
0,5 - 25	EPDM	Air, flammable and toxic gases and vapours	-40...+170	SF03
0,5 - 25	PTFE	Air, flammable and toxic gases and vapours	-60...+225	SF03-...T
25,1 - 50	PTFE filled with carbon	Air, flammable and toxic gases and vapours	-60...+225	SF03-...C
