

## Elemente logice

### Tip AND42, OR42, YES, NOT-S, MV32

AND42, OR42

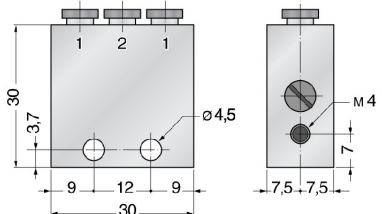

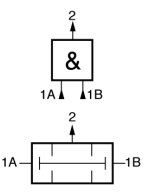

MV32

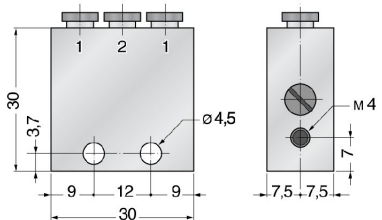

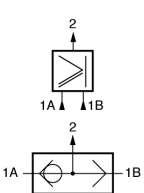

YES, NOT-S

|                     |                                                                                                  |
|---------------------|--------------------------------------------------------------------------------------------------|
| Racordare           | 4 mm push-in<br>MV32: G1/8"...G1/4"                                                              |
| Domeniu de presiune | 2...10bar                                                                                        |
| Debit de curgere    | 95 NI/min<br>MV32: 500 NI/min respectiv 1100 NI/min                                              |
| Mediu               | aer comprimat filtrat și lubrifiat sau nelubrifiat                                               |
| Notă                | Fișiere CAD sunt disponibile în STASTO Store la <a href="http://www.stasto.eu">www.stasto.eu</a> |

#### AND42 Element ȘI-NU

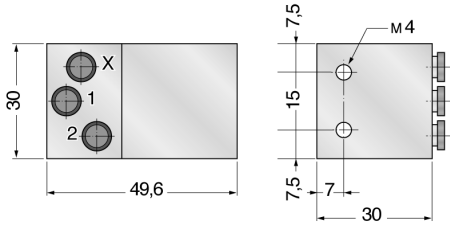

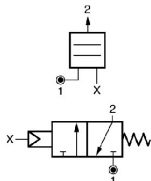

|                                                                                     |                                                                                     | Funcție | Tip   |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------|-------|
|  |  | ȘI      | AND42 |

#### OR42 Element SAU-OR

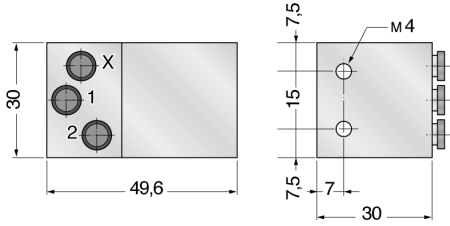

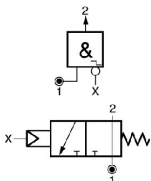

|                                                                                     |                                                                                     | Funcție | Tip  |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------|------|
|  |  | SAU     | OR42 |

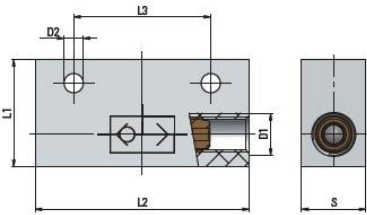

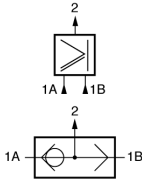

YES Element YES

|                                                                                   |                                                                                   | Funcție | Tip |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|---------|-----|
|  |  | YES     | YES |

NOT-S Element NOT

|                                                                                   |                                                                                   | Funcție | Tip   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|---------|-------|
|  |  | NOT     | NOT-S |

MV32 Element SAU-OR

|                                                                                    |                                                                                    | Funcție |
|------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|---------|
|  |  | SAU     |

| Racordare<br>D1 | D2  | L1 | L2 | L3 | S  | Debit de curgere<br>[Nl/min] | Tip        |
|-----------------|-----|----|----|----|----|------------------------------|------------|
| G1/8"           | 4,5 | 25 | 50 | 32 | 15 | 500                          | MV32-00-18 |
| G1/4"           | 5,5 | 30 | 52 | 35 | 25 | 1100                         | MV32-00-14 |
