

Profile magnetic cylinder VDMA - ISO 15552 Series PC60

Design type	Profile magnetic cylinder according to VDMA - ISO 15552
Heads	High-pressure die casting Aluminium alloy hard anodized
Piston rod	Stainless steel 1.4021 knurled
Cylinder tube	Aluminium profile hard anodized
Seals	Polyurethane
End-position cushioning	pneumatic, adjustable
Stopper	mechanical
Ambient temperature	-10...+80°C (-20...+150°C for version FKM seals, -40...+120°C Low temperature-NBR)
Medium temperature	0...+40°C
Lubrication	not necessary
Medium	filtered compressed air
maximum operating pressure	10bar
Scope of delivery	incl. Piston rod nut
Special versions	ATEX, for hazardous area (explosive atmosphere); Low-friction version; anti-rotation secured; Hollow piston rod; extended piston rod; Special thread on the piston rod; Cylinder tube mounted rotated by 180°
Note	Accessories see separate data sheet CAD files are available in the STASTO Store at www.stasto.eu Solenoid switch see separate data sheet

Type code

		PC60 - 32 - 25 - 25 - VV - 01																		
Type	double-acting	PC60																		
	single-acting spring front	F																		
	single-acting, spring at rear	R																		
Diameter [mm]	32		32																	
	40		40																	
	50		50																	
	63		63																	
	80		80																	
	100		100																	
	125		125																	
Stroke [mm]	see table Standard strokes			25																
Stroke 2 [mm]	only for version Multi-position (without Stroke 2 Leave blank)				25															
Special version	Low-temperature version																		LT	
	Multi-position																		MP	
	Tandem																		MT	
	continuous piston rod, only for version double-acting																		P	
	Piston rod seal FKM																			VS
	FKM seals																			VV
Special version	described in the item text																		01,02,...
